AN ADAPTABLE

RECYCLING SOLUTION

Customised recycling—Facilities can choose from 6 colours with customised openings to build a recycling station that fits their unique recycling needs.

6 COLOURS

Colour-coding creates consistent visual cues for patrons and staff when sorting recyclables.

Blue Red Yellow Green Dark Grey Black

CUSTOMISED LID OPTIONS

Restrictive lid shapes ensure the right waste streams get into the right bins. For an open top option, no insert needed.

Mixed Recycling

10 WASTE STREAM LABELS

Expert designed waste stream labels feature 3 visual cues: the recycling symbol, a waste stream icon and verbiage proven to increase recycling effectiveness.

SNAP-IN CONNECTOR

Connect bases without the use of tools or hardware.

HINGED LID INSERTS

Accommodate larger sized recycling material.

VENTING CHANNELS

Make removing liners up to 80% easier, improving productivity and reducing the risk of worker injury.

BAG CINCHES

Secure liners around the rim of the container and allow for quick, knot-free liner changes.

DESIGNED FOR EASE OF USE

Sized to fit. The slim footprint fits in the tightest spaces, while hinging lid inserts allow larger recyclables to easily fit inside.
